The Class of 1987

Science Fair '87

Irene Welch Class of '87, under pressure as she is quizzed by Mr. Carl Johnson, one of the judges. (Winner 1st place Senior Division)

Jason Thousand, Class of '88, explains his project to Mr. Arangio and other spectators. (Winner: 1st place Senior Division)

DeFang Cen, Class of '91, explains (in Chinese), his solar Energy project to a bilingual judge. (Winner: 1st place Junior Division)

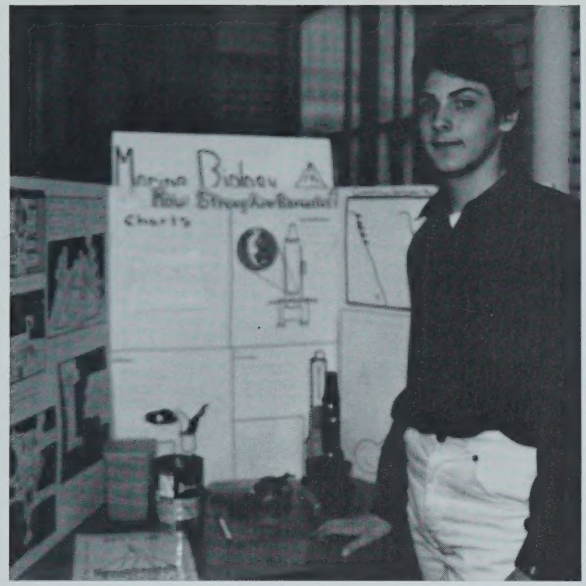
ALL DURING THE CHRISTMAS SCHOOL VACATION, IRENE WELCH KEPT PONDERING THE SUBJECT OF HER SCIENCE PROJECT. IRENE IS A SENIOR AT THE MARIO UMANA HIGH SCHOOL IN EAST BOSTON. BY JANUARY SHE HAD DECIDED TO DO A PROJECT ON THE WATER QUALITY WITHIN HER SCHOOL ENVIRONMENT. THROUGHOUT JANUARY AND INTO THE EARLY PARTS OF FEBRUARY SHE SELUTED VARIOUS SOURCES OF WATER WITHIN HER SCHOOL AND CONCENTRATED ON RESEARCHING THE PRESENCE BACTERIA WITHIN.

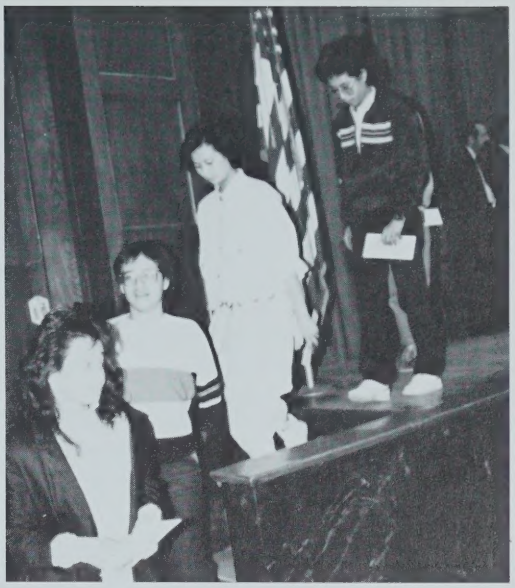
SHE DECIDED UPON:

1. WATER FROM A LABORATORY TAP.
2. WATER FROM THE SECOND FLOOR
3. FRESHLY FALLEN SNOW JUST OUTSIDE THE BUILDING.
4. WATER FROM THE SCHOOL'S SWIMMING POOL. LATER SHE ADDED, AS A TEST, SAMPLES FROM A BOTTLE OF SPRING WATER BROUGHT IN THE SCHOOL.

IRENE TESTED THESE SAMPLES FOR BACTERIAL GROWTH, IDENTIFICATION OF BACTERIA OR MOLDS WHICH GREW AND ESPECIALLY THE IDENTIFICATION OF E. COLI (FECAL POLLUTION). USING THREE TYPES OF TESTING MEDIAS SHE DISCOVERED STAPHYBOCCOUI, STRUTOCOCCI AND SLIME MOLDS.

HER HARD WORK WON FIRST PLACE FOR HER PROJECT AT THE MARIO UMANA SCHOOLS' SCIENCE FAIR AS WELL AS A FIRST PLACE POSITION AT THE CITYWIDE SCIENCE FAIR HELD AT THE BOSTON LATIN SCHOOL ON SATURDAY MARCH 21. THEN, IRENE ENTERED HER PROJECT TO BE JUDGED AT THE STATE SCIENCE FAIR.





Al DiSessa has a keen interest in Science, and a particular passion for Marine Biology. Through his project, which was entered into the annual City of Boston Science Fair, Al was able to continue his research into the habits and characteristics of a group of a marine organisms, namely: the barnacle. Al was maticulous in his research on the barnacle. He studied, and subsequently explained, the life cycle, habits, and eating charecteristics of this marine animal. The judges of the City of Boston awarded Al a 3rd prize in the junior division of the fair. The Mario Umana School of Science and Technology can be very proud of Al DiSessa and all the other students from this school who participated in, and won awards at the City Science Fair.

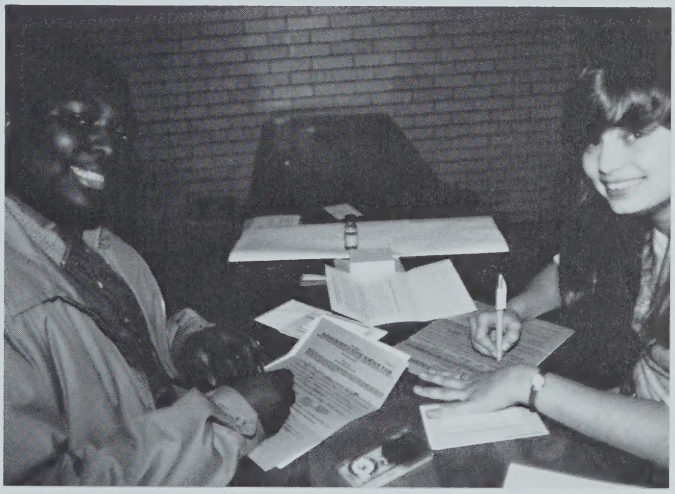
Edward Carlson
Grade 8 Science
303

"I was a priviledge to be one of the representatives from the Umana at the city-wide science fair. I was honored to receive 3rd place since I was competing among 200 students from the Boston Public Schools. My project, Da Vinci's Machines dealt with simple machines and how they work.

I am already thinking about next years' project. I want to WIN first place."

Luis Conde (pictured above 2nd from bottom)

Ms. DiSessa accompanies Al to the city-wide competition to cheer him on to third place.

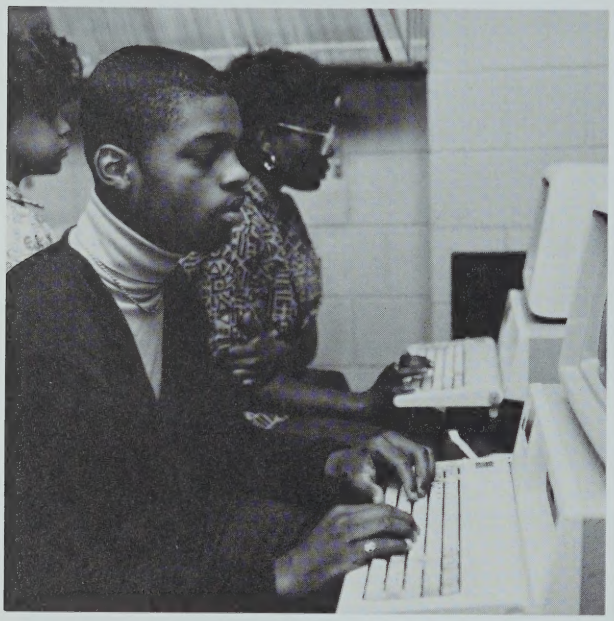


These two FIRST PLACE WINNERS, Jason and Irene prepare application forms for State Science Fair.

COMPUTER PROGRAMMING

"The Umana" best and the in science and

The Mario Umana is a school of Science and Technology. At "The Umana" students are given the opportunity to explore, and then major in one of four tech areas. The four areas are: 1.) Medical Technology, which is the study of the medical field and medical career available, 2.) Aviation, which teaches students about the field of aerospace science, 3.) Electronics, which exposes students to all aspects of the electronics field, 4.) Computer tech, which exposes students to computer programing languages and applications programs.



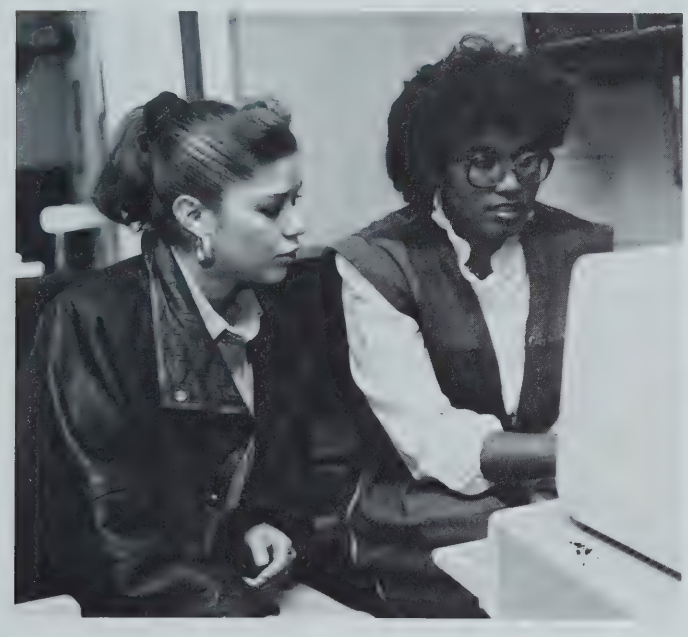
*Hazel Good, Shandel Branch, and David Washington are programming Data Base.

*Bich Oanh Wong is using BASIC to program.

As mentioned above the computer tech course has two major components: applications programs and programing languages. In the sections of the curriculum devoted to applications programs three basic software groups are explored. The first of these applications is wordprocessor (a program which makes the computer act like a typewriter). Typical assignments on the wordprocessor include: writing a resume, job applications letters and writing essays. The second application is spreadsheet (a program which makes the computer act like an accountants work sheet). Typical assignments on a spreadsheet include: producing a household budget, student grade reports and sports statistics. The third applications is data base (a program which makes the computer act like an filling system). Typical assignment on data base include: student addess file, class list and mailing labels.

*Anthony King assists Mr. Maney in a loo loo of a problem.

has the brightest technology.



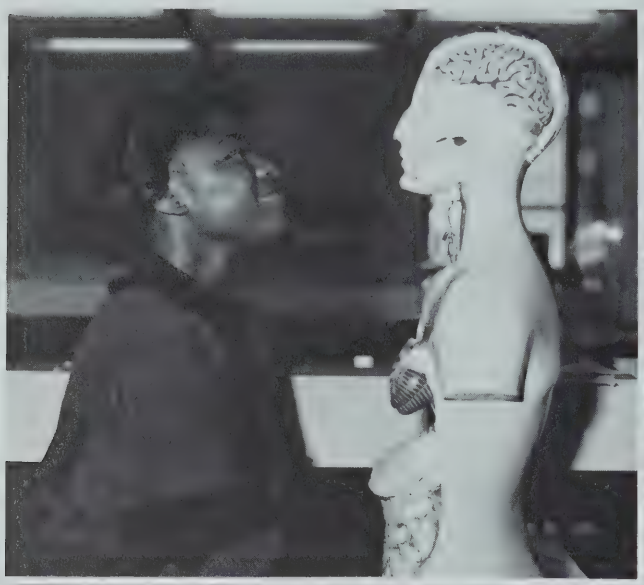
*I've never seen it do that before?!

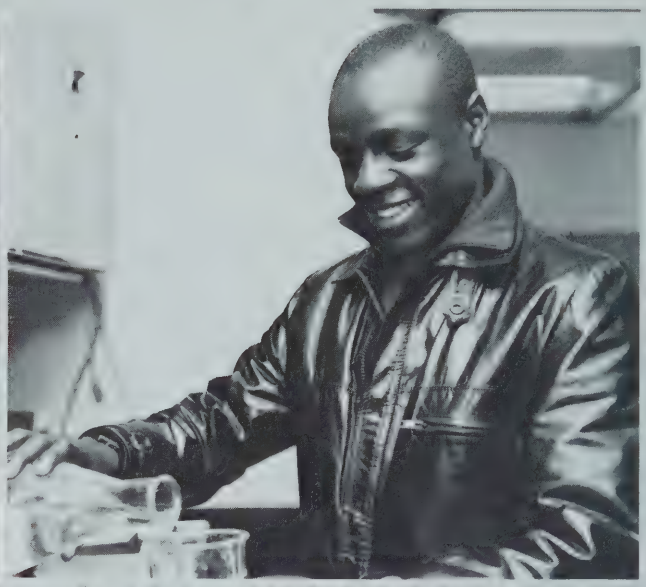
*I know what I'm doing! Don't worry!

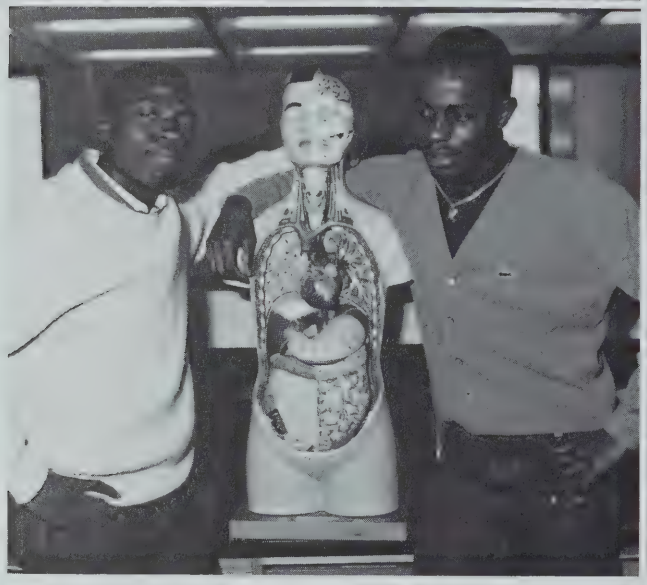
In the section of the program devoted to programming languages both BASIC and Passcal languages are taught. These are high level programming languages used to give instructions to the computer. These instructions must allow the computer to complete a task one step at a time. The major thrust of this portion of the computer curriculum is not the syntax (structure) of these programming languages but a method of logical thinking. These students students are constantly involved in the thought process and learn that a computer is only good as the person programming or running it.

After completing this curriculum students should have a good working knowledge of computer usage in either the work place or an educational setting. All non computer major are exposed to some of these areas to a much lesser degree in thr computer literacy course.

MEDICAL TECHNOLOGY







"Med Tech"

The month of March was exciting because of all 10th, 11th and 12th grade students in the "Med. Tech." were busily engaged in getting CPR certification. Sixty-nine students were certified and one of them save her baby's life two week's after the course ended. It is always a high in the school year when a student achieves a hard deserved goal and saves a life at the same time.

Sometimes we struggle through the lessons but rewards are sweet when high student achievement is the end result

* * * * * * * Funds became available to purchase another mannequin for CPR training. A presentation was made to Mr. Arangio to say, "Thank you." * * * * * * *

Lucy Veiga, Margarita Reyes, and Tara Hicks are preparing for CPR.

Pei Lee Szeto and Marguarita Reyes begin mouth-to-mouth resecitation.

Dr. Bowens dispenses test tubes for a lab experiment in Med Tech.

Mr. Arangio is presented with the "Umana" mannequin.

Li Sue and Dr. Bowens are at the city-wide Science Fair.

"The Science Fair"

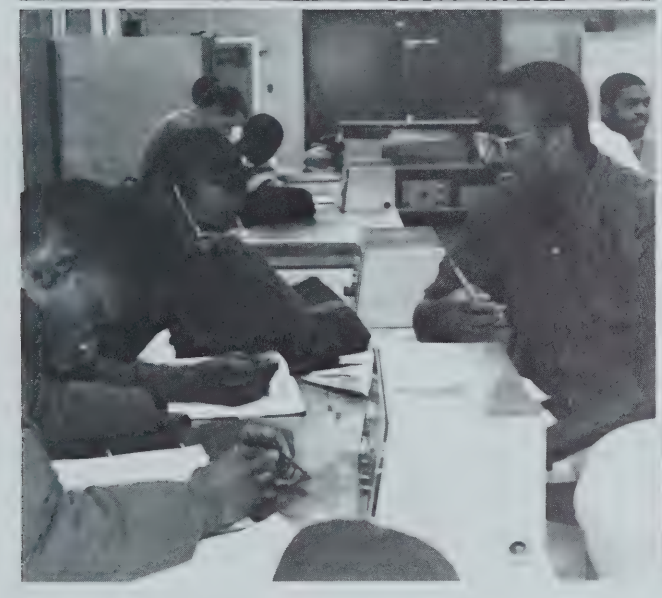
My, "Science '87" was fun! Students were eager, imaginative, workers, patient, curious and determined. They were also relaxed and just a bit laid back enough to kume good producers. As you know, we started in good time, just before Christmas break. That meant that we were not hurried and spastic about reaching the deadlines. The job of coordinating things was demading but everyone pitched in to carry the load so things got done. We have thanked many of the staff members who volunteered their support, but we probably were not generous enough in extending thanks to all of the students. They were magnificent, and already we are hearing about expansion plans students have for next year's fair. That's wonderful and over the summer I'm certain that enthusiasm will remain to get things going for "Science 88."

AVIATION

The aviation program began in 1984 at the UMANA. This unique curriculum offers the students an introduction to the field of aeronautical science. The seniors pictured above use the simulated cockpit to put into practice what they've learned.

(pictured left is a 1977 Sky Hawk Single Engine Land Cessna 172—it's beauty Mr. Wing!)

ELECTRONICS



The electronics program is designed to provide an explanation of theory. Through the many "Hands on" projects, the student is offered practical application of the principles of electronics. This program serves as a foundation for future studies, which later can lead into careers in this field.

Jennifer and Tonya plan for the upcomming R.O.T.C. ball

Jennifer Ferrioli Cadet Major-Queen of the military ball.

"PARTY!"

Cong Huyuh receives cadet Lt. Col. rank upon promotion.

Thank you Anthony Barros for painting the R.O.T.C. mural.

Friends . . . Memories.

The class of 1987, R.O.T.C. Cadets, faculty, and staff will always remember Major DeVincenzo and Chief Baron as . . . friends.

"YOU'RE THE BEST"

On May 13, 1987, the 8th annual ROTC Awards Ceremony was held in the auditorium at the Mario Umana. These awards were given to recognized individuals and Unit Achievements for the academic year 1986/1987. The following is a list of the National Awards received by Cadets in the AFJROTC Program.

NATIONAL AWARDS

Air Force Association Medal - Cadet Captain Ponciano Sanchez, in recognition of outstanding achievement in leadership and academic standing in the Air Force Junior ROTC Program. Presented by Mr. John Camplese, President fo the Air Force Association, Pace Chapter.

American Legion AFJROTC Scholastic Award - Cadet Lt. Col. Fausto Pina, in recognition for leadership qualities and active participation in constructive student activities. Presented by Mr. Sarge Giannetti, Commander American Legion Post #30 of East Boston.

American Legion AFJROTC General Military Excellence Medal - Cadet Lt. Col Cong Huynh, in recognition of outstanding academic and leadership achievements. Presented by Mr. Sarge Giannetti, Commander American Legion Post #30 of East Boston.

Daedalian AFJROTC Achievement Award - Cadet Master Sgt. Denise Winton, in recognition of outstanding achievement as a third year cadet in the Junior ROTC program. Presented by Major Gaetjens, Aerospace Science Instructor.

Daughters of the American Revolution Award - Cadet Major Daryl Smith, in recognition of extraordinary academic achievement and demonstrated qualities of leadership and citizenship. Presented by Mrs. Michael Rozas, Guidance Department.

Reserve Officers Association Medal - Cadet Lt. Col. Cong A. Huynh, in recognition of outstanding military and academic achievement. Presented by Major Gaetjens, Aerospace Science Instructor.

Military Order Of The World War - Cadet Staff Sgt. Eric J. Williams, in recognition of demonstrating military leadership, academic strength and patriotic zeal. Must be outstanding first year cadet. Presented by General White.

National Sojourners Award - Cadet Tech Sgt. Joel Williams, in recognition of the highest attributes of Americanism and support of the United States as a member of the cadet corps. Presented by Sgt. John Bocchino, past commander of the American Prisoners of War.

Sons of the American Revolution Medal - Cadet Beatrice Forbers, in recognition of high degree of leadership qualities, military bearing, and all around excellence in Aerospace Science Studies and activities. Presented by Caommander David Gray, UNSR, President Mass. Society of SAR.

Veterans of Foreign Wars - Cadet Captain Ponciano Sanchez, in recognition of outstanding Aerospace Science III cadet activity engaged in the AFJROTC Program and in special recognition of outstanding achievement and exceptional leadership ability. Presented by Mr. Edward A. Nardi, Past State Commander.

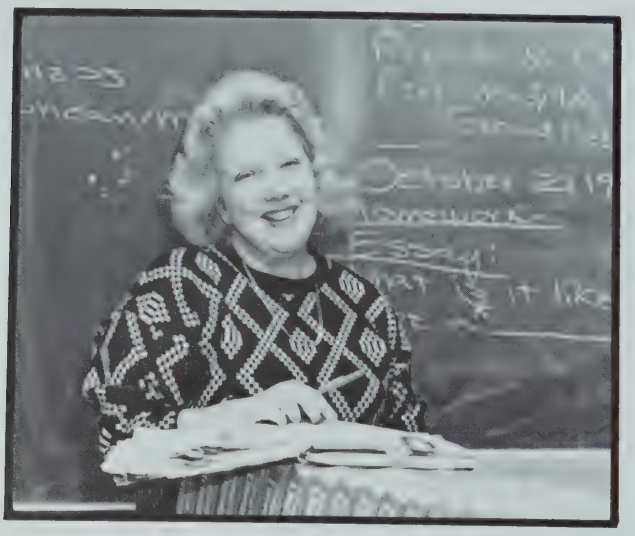
Retired Officers Association ROTC Medal - Cadet Major Jennifer Ferrioli, in recognition of excellent academic achievement and exceptional potential for military leadership. The Award will be presented at a banquet at Hansom Air Force Base.

Major Salvatore Devincenzo Scholarship Award - Cadet Lt. Col. Fausto Pina, in recognition of outstanding senior cadet who will be going to college next year. Presented by General White and Mr. John Camplese (check for $100).

In addition to the National Award, numerous unit ribbons and awards were presented at the ceremony. Overall, the Award Ceremony was a great success.

—by Herman Kwan

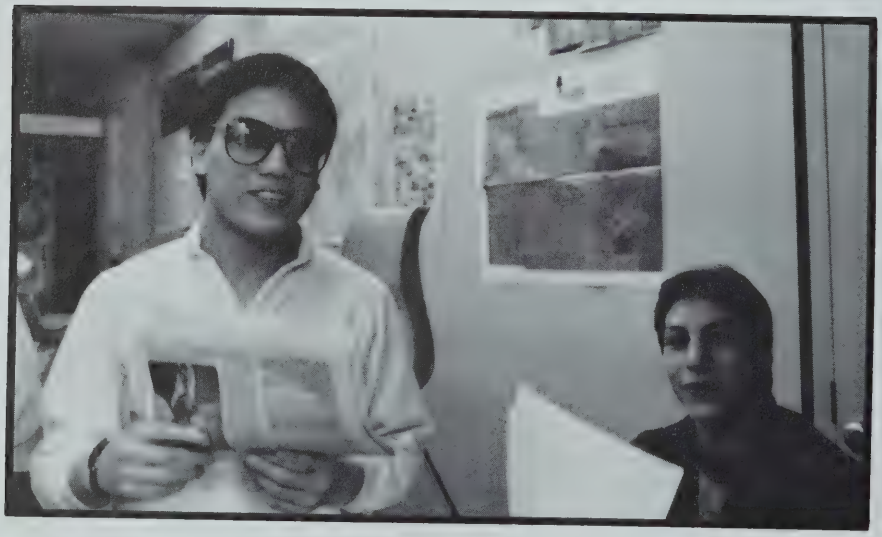
NEWSPAPER . . . NEWSPAPER . . .

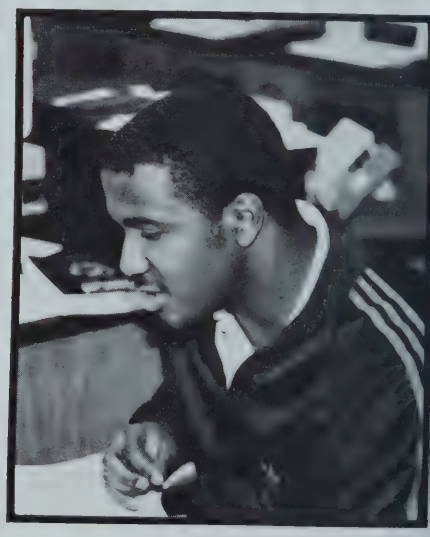


The Eagle Wins Award

On March 31, 1987 a group of 24 students from the Umana, including the newspaper staff, journalism class, and others who wished to attend, took advantage of the opportunity to be present at the 39th annual Conference of the New England Scolastic Press Association.

This conference, held at Northeastern University, was divided into lectures and workshops which provided information on various areas of journalism. There were 23 workshops covering every area of journalism, so that each participant could focus on their major journalistic interest.





NEWSPAPER . . . NEWSPAPER

The highlight of the conference was the awards. In which I am proud to announce that the Umana Eagle won the "Meritorious Award" for achievement. It seems that all the efforts of the newspaper staff and the others who have contributed have been recognized in the production of a paper awarded for its excellence. As a member of the staff, I'd like to take this opportunity to thank everyone who participated in making the Umana Eagle the successful paper it is. To us (staff) the Meritorious Award shows an accomplishment, established through diligence and team work. One we hope is emulated in the many Umana Eagle issues to come.

Tangela Brinson, an Eagle reporter (wrote this article for the Graduation Issue.)

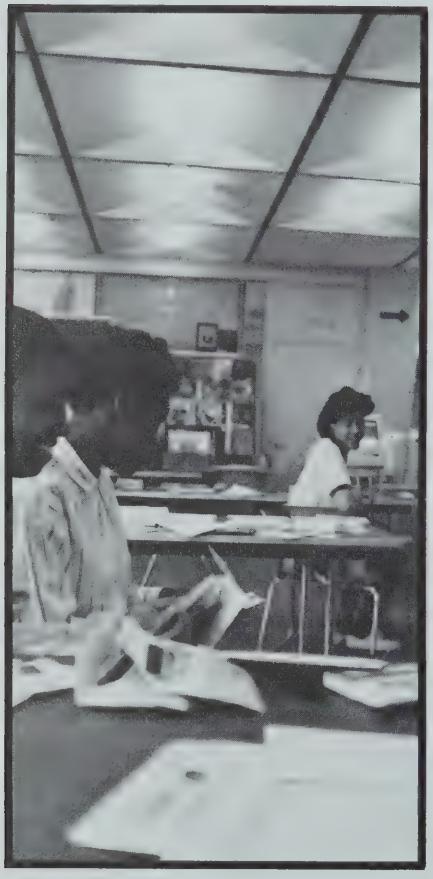
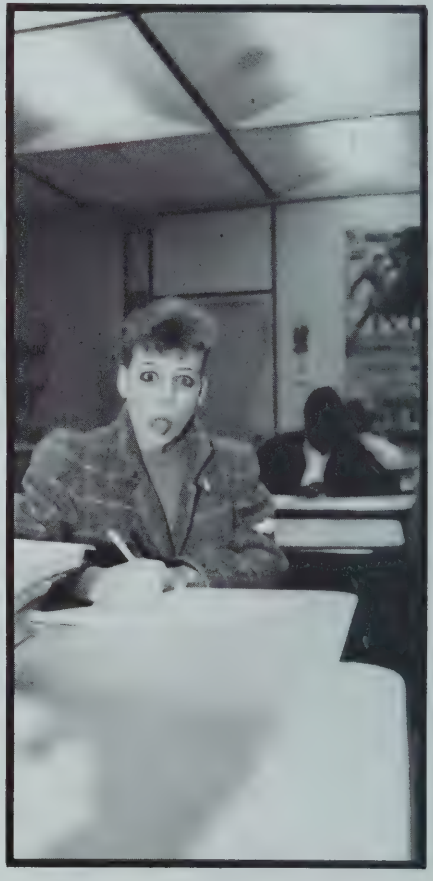
YEARBOOK . . . YEARBOOK

The yearbook staff was comprised of a planning team who gave us the cover design and the format of the book. They made crucial decisions quickly and they were thinking of the whole class as FRIENDS TO BE REMEMBERED.

The photographers, Kevin Jacques, Jeffrey Sanchez, Mark Johnson were always so agreeable when they received their assignments. A special thank you to CAMBRIDGE STUDIOS, to Ms. Gomez and to Ms. Walton.

There were people helping with the typing and the wordprocessing. Because many seniors had to work, they usually volunteered to take this work home, or they found time during their computer or typing classes.





YEARBOOK . . . YEARBOOK

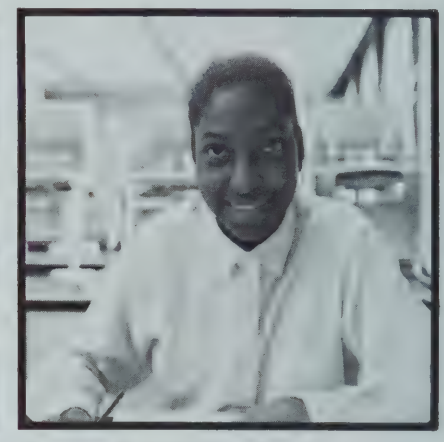
The fundraisers sold candy, t-shirts, ads, and that beautiful tradition of selling carnations. The list of people are too numerous — you all know who was pitching in for the senior class. THANKS.

A Special Thanks To
Everyone Who Supported Us!

YEARBOOK . . . YEARBOOK

There were layout artists who designed where the pictures would go. They had to make big decisions as to which photographs would make it into their yearbook. On many occassions, the two art classes comprised of mostly seniors made choices and added to graphic decisions.

At the pressure of deadlines, the co-editors, Giselle and Juanita were always there. Your class leaders, Jewel Gilmer and Merlin Nord, and art student, Maria Murray came through as shining stars. Leonna Saunders came in at the end of the year as a heroine, pulling loose ends together. THANKS.



YEARBOOK . . . YEARBOOK

The co-editors both worked hard and put in countless hours. As you flip through this book, remember, GISELLE GONZALEZ AND JUANITA TIMSON AS FRIENDS OF THE CLASS OF '87.

Thank You Giselle And Juanita!!

Congratulations To The Class Of 1987

I extend my best wishes and sincere gratitude to you for your commitment, accomplishments and preservance through these years. You are now recognized as a member of the adult community. For some, this means you will assume the responsibilities of work and, perhaps, family living. For others it means you will pursue further years of study. Still others may combine both work and school. Whatever course you take, I hope you will look back on your years at the Umana with pride and the belief that the Umana prepared you for the challenges and opportunities you will face. I wish you the happiness and reward of a self-sufficient, productive and meaningful life; the respect of your associates and the love of your family.

Mr. Arangio, Headmaster

Central Square • Maverick Square • Orient Heights • 567-1500

One night a man had a dream. He dreamed he was walking along the beach with the LORD. Across the sky flashed scenes from his life. For each scene, he noticed two sets of footprints in the sand; one belonged to him, and the other to the LORD.

When the last scene of his life flashed before him, he looked back at the footprints in the sand. He noticed that many times along the path of his life there was only one set of footprints. He also noticed that it happened at the very lowest and saddest times of his life.

This really bothered him and he questioned the LORD about it. "LORD, you said that once I decided to follow you, you'd walk with me along the way. But I have noticed that during the most troublesome times in my life, there is only one set of footprints. I don't understand why when I needed you most you would leave me."

The LORD replied, "My precious, precious child, I love you and I would never leave you. During your times of trial and suffering, when you see only one set of footprints, it was when I carried."
